CropStart

CONTROL SYSTEM

- Speed compensated technology- replaces ground drive and squeeze pump systems
- Simple, user-friendly console and installation on the planter
- Serial port to interface with dataloggers & GPS
- Automatic system shut off when planter is raised from ground. Turn it on at the beginning of the day and go!
- Interfaces with existing radar on tractor
- Kits include console, flow monitor and stand assembly, pump, on/off valve, proper cables, etc.
- Proven, reliable pulse width modulated motor control
- Raven support

AccuRow Kits - on page 46
