BANJ Manifold Inductor System

NOTE:
The inductor is designed for use with a volume pump. Typical volumes & pressures used to operate the inductor would be in the 80 to 240 GPM range at pressures from 26 to 52 psi.

Manifold Inductor System

- Features:
- Installed after pump, suction completely empties inductor tank.
 - Keeps tank free of chemicals
 - 2" & 3" Full port flow
