New! Trimble AgGPS FmX

Largest color touch screen available (12.1")

A virtual lightbar gives you quick on-line feedback

Integrated 450 or 900 MHz radios and external video input

Toggle between plan and 3D views or zoom in/out with just a tap of your finger.

Two GPS+GLONASS receivers-precision with the vehicle, as well as the working implement behind the tractor where it really matters

Supports every application offered by Trimble.

The Insight is a feature filled display capable of operating all of Ag Leader's functions, plus interface to other industry leading features. The Edge is a good choice for operations just getting started or growers needing multiple displays. The NEW AgGPS FmX is a 12.1 inch display that supports every application offered by Trimble.
