AccuBoom
Remote
Control
add-on

AccuBoom

- Automatic individual boom section control
- Set up non-spray zones and field boundaries
- Compatible with most self-propelled and pull-type sprayers

AccuRow

Tru Count Air Clutch System

Purchase planter specific "GPS" Air Clutch Kit
4-section banks.

AccuRow Kit (4-16 section) 117-3001-001 \$2,100

AutoBoom

To order PowerGlide or UltraGlide Kit:

Identify the make, model, and boom width of machine
Select Installation kit, Controller kit, and CAN kit
Call for Sprayer specific application and price.

Switch Pro

Switch Pro is a easy way to add flow control and boom section control to their Viper Pro or Envizio Pro. This benefits the operator by reducing overlap and providing hands-off control, and ensuring coverage of point rows and reducing operator stress.

SmartBoom

- Automatic boom section control
- True "plug and play" installation, no wires to strip or twist together
- Control up to 7 boom sections
- Create field boundaries and no-spray areas; protect grass waterways
- Adjustable on & off look-ahead times and Percent coverage
- SmartBoom override; allows system to operate from a dead stop
- Controls up to 3 amps per valve

Kit for 440/450/460/660
