

The Eco Weeders from Univerco are a valuable asset for organic as well as conventional farms. We offer different sizes and attachments to fit your specialized needs.

**Multiple Row Weeder**

The fully adjustable units will easily adapt to your type of crop, reducing man power and weeding time. Replace from 24 to 50 workers in the field, and cover up to 30 acres a day, depending on what kind of crop you grow.

**Eco Weeder I and II**

The Ecoweeder I and II are ideal for small farms who have limited man power. With an Ecoweeder I you will easily replace up to 8 workers in the field, and cover up to 6 acres a day, depending on the type of crop you grow. You will double these numbers with the Ecoweeder II.

**Options:**

**Discs**

Different types of discs can be sold separately for different kinds of cultivations; strawberries, raspberries, squashes, zucchinis, pumpkins, cauliflowers, cucumbers, green peppers

**Ridge Protector**

Holds fruits and vegetables ridges in place while weeding

**Options for Eco Weeder I:**

**The In-between Discs**

With this option you can weed between each row. This will avoid having to go over with another weeder, and will allow you to perform two operations at

**Offset 3 Points**

When two rows pass underneath the tractor you can off-center; it becomes a very versatile tool.

**Demulcher**

To work faster on the mulch, the demulcher throws the straw between the rows.
